

Week 9 assignment

The focus of this video is to create your own song and riffs, the example I play is JUST an example how it could be done and not something you should learn, but just for you to see one way and one approach. This is also why I did not add the tabs for what I did on purpose

The scale: G Harmonic minor and C Harmonic minor

The chord progression: Gm – Cm – D – G – Cm – Fm – G – C or Cm
